RE: CD inst. for products originating from third countries (multiple case numbers) in the cvd order of crystalline silicon photovoltaic cells, whether or not assembled into modules, from PRC (C-570-980)

1. Commerce has published in the Federal Register (80 FR 41003) on 07/14/2015 the final results of administrative review of certain exporters subject to the countervailing duty order on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China (PRC) for the period 03/26/2012 through 12/31/2012.

2. As discussed in paragraph 2 of Message No. 2346303 dated 12/11/2012, Commerce considers modules, laminates, and panels produced in a third-country from cells produced in the PRC to be covered by the scope of this order. However, modules, laminates, and panels produced in the PRC from cells produced in a third-country are not covered by the scope of the order. Since importers may import modules, laminates, and panels produced in a third country from subject solar cells produced in the PRC and this merchandise may have a non-Chinese country of origin, third country case numbers have been established to allow such merchandise to be properly claimed as subject merchandise upon entry.

3. As a result of Commerce's review, the cash deposit rates have been revised for certain exporters. Therefore, for shipments of crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China entered, or withdrawn from warehouse, for consumption on or after 07/14/2015, the required cash deposit has been revised for the following exporters:
